July 21, 1984

Dear Mr. Casey,

As the copy editor of Hillside Books - a small-press publisher, I am interested in your feelings on the issue of the nuclear threat in 1984.

A book is presently being planned on the subject of attitudes about the nuclear threat. And it will attempt to reveal the feelings of a broad range of people - teachers, scientists, working men and women, world leaders, writers, artists, theologians and others.

As presented here, the nuclear threat could be categorized as events leading to the confrontation of super powers; the manifestations of nuclear warfare; nuclear testing and fallout, or the use of nuclear power and its effects on the environment. The book is meant to be a caveat of opinion as well as a major statement of and about this nuclear generation.

The book is tentatively titled "Nuke-Speak" and I welcome you to submit a statement if you wish - a sentence or two, a paragraph or whatever your inclination if you care to - for inclusion in this book.

I personally feel your submission would add tremendously to this project and to the public dialogue on this ominous worldwide controversy. Should you choose to contribute, I will send along a note of confirmation when the copy goes to typesetting. This volume is being planned for paperback and as of this writing it may be available by Summer 1985.

I thank you for your attention and thoughtfulness.

Very respectfully,

A handwritten signature in cursive script that reads "Peter Bollen".

Peter Bollen
